CITS CONFERENCE
Tuesday 6th November 2018
The Plant and Agricultural National Intelligence Unit (PANIU), acts as a focal point for all intelligence relating to the theft of construction and agricultural equipment and maintains a record of stolen machinery from across the UK.

PANIU support Police operations across the UK and act as a conduit for sharing advice/trends nationally.
1. All allegations of crime must be reported to the local force area.

2. Any reported machinery that cannot be identified i.e. Make/Model/Numbers cannot be circulated on the Police national Computer (PNC) as it is unidentifiable.

3. In addition, PANIU record details of stolen plant and agricultural machinery including attachments and items that can be towed.
THANK-YOU FOR LISTENING
